8907

ENGINEERING NEWS

A JOURNAL OF

CIVIL, MECHANICAL, MINING AND
ELECTRICAL ENGINEERING

VOLUME LVII

JANUARY—JUNE, 1907

THE ENGINEERING NEWS PUBLISHING COMPANY

NEW YORK

INDEX

TO VOLUME LVII, JANUARY–JUNE, 1907

Subdivided into GENERAL (including *Technical Articles, Editorials, Letters to the Editor* and *Current News*); ILLUSTRATIONS: AUTHORS: ENGINEERING LITERATURE and CONTRACT PRICES.

GENERAL INDEX.

Abrasive materials and their use in shop Practice, by J. Royden Pierce.... *625
Abutments: Cracks in U-abutments.... 357
Accidents:
Attempts to wreck passenger trains.. 388
Avalanche of ice, Niagara Falls..... 300
Battleship explosion, Toulon..... 299
Boiler explosions:
Bridgeport, Pa..... 115
Penna. R. R..... 169
Breakwater, Buffalo, N. Y..... 169
Bridges:
Atlantic City 115
C. M. & St. P. Ry..... 362
Collapse of span at Washington.... 337
Failure of concrete arch..... 523
Southern Ry..... 580
Buildings:
Bixby Hotel, California.....20, 44
Eastman Kodak Co., Rochester..... *1
Chimneys:
Chicago 400
Louisville, Ky. *156, 242
Coal mine, Liege, Belgium..... 494
Dams:
Chihuahua 523
Fort Collins, Colo..... 721
Dynamite explosions....143, 299, 362, 650
Earthquake, Jamaica..... 79
Earth slip in embankment of Wachusett Reservoir *464
Electric fires 247
Electric railways, due to location..... 621
Elevated railway, New York..... 247
Explosions:
Blast furnace at Pittsburg..... 604
Charlestown, W. Va..... 523
Forcite, New York City..... 605
Gas at Pittsburg..... 79
Gas main pipe..... 50
Ice machine, Chicago..... 169
Steam turbine 468
Fires 428
Dynamite magazine, L. I. City..... 246
McGill University, Montreal..... 433
Philadelphia, Pa..... 143
Springfield, Mass..... 143
Tenares mine at Velardena, Mex.... 547
Floods:
Colorado River 15
Mine at Johnstown, Pa..... 494
Flooding out fire in Lead, S. Dak..... 697
Gas leakage, Winooski, Vt..... 262
Gas main pipe explosion..... 50
How to secure safety for workmen.... 184
Industrial, Pres. Roosevelt's address.. 656
Liability of employers, America and Europe 184
Locomotives, boiler explosion on Atlantic City R. R..... 115
Masonry, Philadelphia.....*117
Mine:
Cave in, Bakersfield, Cal.....*318
Explosions 14, 115, 143, 169, 220
Statistics 169
Mining statistics 189
Pier and pier shed collapse, Baltimore 495
Premature blast, Penna. Tunnel, N. Y. City 722
Prevention of 415, 580, 656
Railways:
Attempts to wreck trains.....409, 433
Balt. & Ohio 23, 523
"Big Four" Ry.....115, 721
Birmingham, Ala..... 189
Boston & Maine..... 220
Canadian Pacific.....79, 433
Cause of accidents in England..... 51
Causes of accidents on curves..... 381
Cave in, Bingen, Germany..... 59
Chesapeake & O. R. R..... 189
Chicago, B. & Q..... 547
Chicago & N. W. R. R..... 247
Chicago, R. I. & Pac.....50, 79
Cleveland, & S. W. Traction Co..... 632
Connellsville, Pa., collision..... 275
Demand for government investigation 42
Fowler, Ind..... 461
Grand Trunk R. R..... 247
Great Northern 433, 696
Haverstraw, N. Y., derailment..... 275
Intercolonial Ry..... 247
Minn., St. P. & St. S. Marie R. R... 23
Naugatuck, Ct., collision..... 275
New York Central, 143, 220, 275, *296, 299, 381, 386, 544, 604, 721
N. Y., N. H. & H. R. R..... 721
N. Y., O. & W. R. R..... 220
N. Y., Phila. & Norfolk Ry..... 494
North British Ry..... 23
Pennsylvania R. R., 247, *264, 265, 275, 293, 381
Pittsburg & L. E. R. R..... 721
Railway companies and railway accidents 44
Reasons for 427
Southern Ry.....388, 405, 409, 547
St. Johnsbury & L. C. Ry..... 433
St. Louis & S. F. R. R..... 189
Statistics of 189, 547
Terre Cotta, D. C., collision..... *50
Texas & Pacific..... 433
Union Pac. R. R..... 50
Reservoir failure, Tupper Lake..... 49
Statistics:
Mine accidents in Great Britain..... 169
Railway accidents 189, 547
Steamers:
"Berlin" foundered 247
"City of Troy" burned 409
"Dakota" wrecked 534
"Hugoma" sunk 247
"Imperatrix" grounded 246
Lake passenger steamer burned..... 547
Accidents:
Steamers: (Continued.)
"Larchmont" wrecked 189
"Marion" burned 256
"Valdiva" wrecked 220
Street railways:
Los Angeles, Cal..... 696
Newark, N. J..... 494
Tidal wave, Dutch East Indies..... 79
Acid treatment for concrete surfaces, patents on 490
Action of locomotives on curved track.. 384
Action of the grand jury on the New York Central wreck at Woodlawn.. 386
Advertising positions; correspondence with applicants..... 461
Air compressor, Vertical intercooler..... *45
Air condenser at steam plant of the White Motor Car. By R. C. Carpenter *260
Air Motor Hoists *214
Air required for drying purposes, volume of 481
Alcohol as a source of power..... 572
Alloy steel: Development in production. 541
Use in automobile construction..... 677
American Association for the Advancement of Science, Annual meeting, 1907 22
American Ceramic Society..... 188
American Electrochemical Society, Annual meeting in Phila., 1907..... 517
American Forestry Association, Meeting at Washington, D. C. 76
American Foundrymen's Association, Convention at Philadelphia..... 602
American Institute of Social Service... 187
American Railway Engineering and Maintenance of Way Association, Annual Convention, 1907, Chicago, 352-359
Committee Reports 359
American Railway Master Mechanics' Association, Convention at Atlantic City, 1907. 694
American Society of Civil Engineers, Annual meeting, New York, 1907.... 112
American Society of Engineers, Spring meeting at Indianapolis..... 627
American Soc. of Heating and Ventilating Engineers, Annual meeting, N. Y. City 142
American Society of Mechanical Engineers, Standard proportions for small machine screws.....*676
American Water-Works Association, Annual convention at Toronto, 1907.. 714
American Water-Works Association, Developments of..... 712
Annexation of Lower California to the United States 326
Application of electricity to reversing rolling mills of high power. By D. Selby Bigge..... 647
Application of flat-plate theory to slab floors of reinforced concrete..... 689
Apprenticeship system of the New York Central R. R..... 695
Aqueducts: (See also Water pipe.)
Katskill: Bids for..... 247
Los Angeles, Cal.....*93, 109, 329
Construction 389
Washington, Need of duplication..... 162
Arches:
For locomotive fire-boxes..... 627
Is the elastic theory applicable to reinforced concrete arches?.....*490
Oakland bridge, Pittsburg, Pa. By Willis Whited *528
Piney Branch concrete bridge at Washington, D. C.....*682
Architects' code of ethics..... 105
Architects, Licensing in Illinois..... 482
Architecture, Use of concrete..... 67
Artificial production of nitrates from the atmosphere. By J. B. Van Brussel.*150
Asphalt pavements, Maintenance of. By S. Whinery 513-509
Audible cab signals as distant signals on the Great Western Ry., Eng...*486
Auditorium and opera house, Convertible combined, St. Paul, Minn..... 633
"Autogenous" welding with the oxygen-acetylene blowpipe.....*706
Automatic sounding recorder..... 478
Automobile highway, Proposed, between Boston and New York..... 302
Automobiles as destroyers of good roads. 209
Automobiles, Use of alloy steel in construction 677

B.

Baggage trucks, Electric, Pennsylvania R. R. 632
Balanced compound passenger locomotive with cab in front.....*570
Ballasting machines, Portable..... 433
Bangs, Anson M. Bidder for Panama Canal contract *104
Battleships under construction for U. S. Navy 363
Beams:
Continuity and cantilever action in reinforced concrete beams..... 43
Continuous beams of shafts having three supports 185
Economic design of reinforced concrete. By F. W. Hanna 203, 245
Formulas for conditions of economy in reinforced concrete beams..... 245
Tables for proportioning..... 217
Bending moments and shears, Maximum live load for bridges carrying electric cars. By Frank P. McKibben. 372
Benzenberg, Geo. H., President of the American Society of Civil Engineers. By Don. J. Whittmore.....†106
Bituminized dirt roads at Santa Monica, Cal..... *543
Blasting, Comparative efficiency of large and small well-drilled holes..... 597
Blocks, Concrete:
Concrete and reinforced concrete construction from the fire protection view 618
Manufacture and use in facing Sandy Hill bridge over the Hudson River.*497
Block construction, Expansion joints in concrete structures, with special reference to. By L. F. Bellinger..*472
Block Signaling:
New system on Pennsylvania Ry.....*506
Recent developments in..... 514
Block Signals: Methods of remedying the interference of foreign currents. 25
Blue-printing Machine, Electric, for unit frames, by F. Lincoln Hutchins....*566
Boiler scale, in relation to heat transmission in boiler tubes..... 373
Boiler Tubes, Steel, corrosion of on vessels fitted with turbine engines, by Commander J. Edw. Palmer.... 426
Boilers, White steam car boilers, by R. C. Carpenter *260
Bomb-proof pumping station at Gibraltar, by Albert Wilson..... 580
Bond between steel and concrete.....*335
Bond for joining new concrete to old..... 21
Bore holes, Determining the direction of and testing their water tightness..*568
Borings:
Gatun, Panama Canal..... 110
New York State barge canal, by Emile Low *54
Cost, by Emile Low..... 326
Wash, New York Rapid Transit Commission *58
Wash Drill, Cost on the Deep Waterways Surveys 57
Brake shoes, M. C. B. tests..... 719
Breakwater:
Cleveland, Ohio, by Geo. H. Cushing..*565
Concrete, Harbor Beach, Mich., by Emil Low *339
Brick and Terra Cotta Association, Combined convention, St. Louis..... 188
Brick tests, high records 279, 330
Brick versus concrete..... 188
Bridges:
Bascule, for the Balt. & Ohio R. R.... 388
Between N. Y. City and New Jersey.... 189
Bridge steel and ship steel unification of specifications for shape..... 622
Brooklyn:
Manhattan Terminal, Commencement of work on..... 409
Poulson system for terminal.....*576
Brooklyn:
Enlarging the Manhattan Terminal..*140
Experimental test of terminal system 519
Cantilever, Quebec, over St. Lawrence River *53
Concrete abutment, S. B. & S. M. Ry..*187
Decision of U. S. Supreme Court regarding bridges over navigable streams. 259
Design for a reinforced concrete viaduct in Milwaukee, Wis.....*178
Double deck swing..... 7
Drawbridges:
Design of 265
Railway, examination in N. Y. State. 265
Report of Railroad Commissioners on protection 257
Extensometer for recording deformations in bridge members under impact stress 681, 685
First concrete arch in the U. S..... 427
Hanging bridge over Royal Gorge, Colo. *217
Highway, Flimsy construction..... *71
Inspection and maintenance..... 482
Long plate-girder and grade alinement changes on the Lehigh Valley R. R. at Towanda, Pa., by Philip H. De Witt *277
Manhattan and Williamsburg new bridge loop 50
Masonry arch at Orleans, France....*345
Maximum live-load bending moments and shears for bridges carrying electric cars, by Frank P. McKibben 372
Mississippi River, Strengthening the three-arch bridge between Minneapolis and St. Paul, by Frank H. Constant *171
New bridge at Lyme, Ct..... 211
Oakland bridge, Pittsburg, Pa., by Willis Whited *528
Venice, Ill., Over Mississippi River.... 469
Piney branch concrete arch at Washington, D. C. *682
Plate girder, novel method of erection.*274
Projected steel arch over the East River at Hell Gate *583
St. Louis, Mo., Bids for construction.. 362
Raising a bridge to allow clearance for dredge *391
Kansas City, Reinforced concrete approaches and column footings of a steel viaduct, by Kenneth Hartley..*132
Reinforced concrete skew, Wabash Railway *323
Sandy Hill reinforced-concrete arch bridge over the Hudson River....*497
St. Louis, Mo., Bids for construction.. 362
Suspension, For Monongahela River at Morgantown, W. Va. By W. H. Boughton *423
Swellendam, South Africa, Resistance to flood *572
Three-hinged concrete arches in Germany *480
Transporter, Newport, Eng. 326
Truss, An early American pin-connected truss bridge *511
Walnut Lane concrete bridge, Philadelphia *117
Washington, D. C.....*292
Wooden, Report of Com. of Bldgs. of the Amer. R. R. Engineering and Maintenance-of-Way Assn. 353
Bronx Park, Derailment of the N. Y. Central, report of the state railroad commission 544
Building Code, Revision, N. Y. City.... 190
Buildings:
Building department regulations and theoretical ideas of reinforced concrete design 597, 652
Concrete, Competition for design..... 632
Concrete and reinforced concrete construction from the fire protection view 618
Condition of the steel work in a San Francisco building erected 13 years ago. By Frank B. Gilbreth.....*124
Construction of walls of terra cotta blocks 164
Errors in municipal regulations for reinforced concrete construction. By C. A. P. Turner..... 166
Highest office building in the world.. *49
Insane hospital at Norwich, Ct., Engineering features of..... 211
Metropolitan Life Bldg., N. Y. City, 48-story tower *138
Prizes for designs for dwelling houses of concrete construction 221
Reinforced concrete, Collapse of Eastman Kodak Co.'s Bldg.....*130
Reinforced concrete warehouse, Tunis, tilted by settlement of ground under foundation 458
Revision and opportunity for 294
Tallest, Proposed in Pittsburg..... 469
The United Engineering Society..... *22
Business and finance in 1907..... 711

C.

Caisson tunnelling, Patents..... 462
Caissons, Reinforced concrete, Rotterdam, Holland .....†64, 137
California Debris Commission, Report... 522
Canal Boats, Electric haulage..... 39
Canal cross sections, Effect of changes upon the rate of flow. By F. W. Hanna 630
Canal linings, Investigation by the University of California..... 486
Canals:
Calumet canal, proposed for Chicago Drainage District 128
Cape Cod ship canal..... 264
Chesapeake-Delaware ship canal.. .. 79
Chicago drainage:
Effect on levels and navigation of Great Lakes 126
Expenses 396
Extension 363
Report of the International Waterways Commission 126, 128
Time of opening 131
1,000-ton barge, Extract from report of State Engineer for 1905-6..... 5
Florida east coast..... 632
Georgian Bay ship canal 605
Hennepin Canal 153
New York State Barge:
Wash drill borings. By Emil Low.. *54
Cost of earth auger borings. By Emil Low 326
Excavating, Machines used.....*607
Progress of work.....*177
Panama:
Bids and changes in organization.. 246, 273
Bids for construction 78
Bid of the Oliver-McDonald combination 183
Borings at Gatun 110
Changes in officers..... 134
Excavation, March, 1907..... 409
Excavations 189
Foundation for locks..... 270
Lowest bidders for contract.....*104
Rejection of Oliver-Bangs bid..134, 142
Proposed waterway to the gulf..... 153
Sheet steel for irrigation in Upper Egypt *430
Truckee-Carson irrigation project, Use of Kutter formula in designing.... 245
Candle-power rating, Commercial decision of street lighting by arc lamps.. 493
Capacity of elevators and escalators for handling crowds. By Chas. D. Seeberger *482
Capacity for service an ideal in technical education. By Frederick R. Hutton 466
Car performance. By C. C. Riley..... 564
Car shortage. By J. W. Midgley..... 564
Car supply, Delays of freight cars in railway yards 651
Car supply and car pools. By J. W. Midgley 564
Car wheels:
For combined interurban and city service, by C. Skinner.....246, 273, *527
New standard flange 209

*refers to illustrations and † to inserts.

173197

Cars:
Clearance-measure, Balt. & Ohio Ry..*638
80-ft. flat, trussed with steel cables, Northern Ry., France.....*638
Scarcity on American railways..... 70
Sleeping cars for electric interurban railways *74
Steam motor, White steam plant. By R. C. Carpenter *260
Steel box car, U. P. Ry..... 264
Steel frame gondola cars, Wabash Ry..*640
Superiority of steel over wooden cars... 380
Used in the McAdoo tunnel system.... 143
Cast iron:
Influence of nickel. By James B. Webb 650
Manganese in. By Herbert E. Field.. 611
Cave-in of an inclined shaft, Bakersfield, Cal. *318
Cement:
Annual convention of the National Association of Cement Users, Milwaukee, 1906 66
Cost and packing 246
Machinery for cement users 67
Production in the United States for 1906 379
Cement-testing laboratory of the U. S. reclamation service 475
Cements, Natural, protests against..... 357
Census of highway traffic in Illinois.....*321
Center-bearing drawbridge, with pneumatic raising jack and turning engine *378
Center of gravity, height as affecting liability to derailment 295
Centrifugal pump installation *37
Chain, new weldless steel *696
Chain-drive:
High speed, Seattle, Wash., and Columbus, S. C. 637
Chaining method and apparatus used by the Topographical Bureau, N. Y. City. By George J. Falkinburg...*291
Channel tunnel, Opposition by British government 362
Chemical analysis, Apparatus for indicating carbon monoxide in air..... 132
Chemistry:
Artificial production of nitrates from the atmosphere. By J. B. Van Brussel *150
Mechanical examination and analysis of manufactured rubber 164
Use of lactose bile media in water analysis. By Daniel D. Jackson... 278
Chimneys:
Boston & Montana Smelter..... 23
Brick, in the San Francisco earthquake 429
Empirical formulas for stresses..... 135
Erecting an extension to the steel smokestack of a copper smelting plant *166
Failure of a 176-ft. reinforced concrete chimney at Louisville, Ky. By D. R. Lyman *156
Reinforced concrete, Design of..... 21
Steel, Rapid work in lining with brick. 491
Steel, Rapid work in reconstruction....*289
Chord offsets, Table for roadmasters....*358
Chronic typhoid fever producer..... 539
Cinder concrete, Reinforced, corrosion of steel. By William H. Fox..... 569
Civic Art, Report of commission for developing new city plan for Columbus, O. 190
Civic government, Consolidation of Pittsburg and Allegheny..... 326
Civil engineers, Question of supplying instruments 596, 652
Civil service examinations:
Philadelphia, Pa., Results of examination for chief of bureau of water. 265
Inefficiency of, for filling important positions 262
Clay, percentage permissible in sand for cement mortar..... 620
Clearance-measuring car for the Balt. & Ohio R. R., by J. H. Milburn.....*638
Clinometer graduated to percentages of grade..... 384
Cloudburst, Oklahoma City..... 495
Coal mines: Methods used in surveying, by L. D. Tracy.....*583
Coal mining: Spontaneous combustion in coal veins 640
Coal:
Testing and Purchasing Coal for Steam Plans. By A. O. Doane..... 146
Total production in the U. S. in 1906.. 697
West Virginia government tests..... 660
Coaling ships at sea. Sea anchor for use with the Miller system..... *40
Coffer dams, Use of steel sheet piling in building. By William G. Fargo....*374
Colorado River break:
Construction of levee below.....*545
Progress in closing 141
Special message of President Roosevelt to Congress urging action for closing 69, 77
Column formulas and the practical column 15, 162
Columns:
Formulas for practical designing..... 136
Simple stresses under eccentric load. By O. H. Basquin.....*420
Steel, Filling for concrete..... 429
Commerce:
Rubber production in 1906..... 242
Trade between U. S. and its possessions 221
Commercial preservation of mine timber 261
Common defects in steel structural work. By Edward Godfrey.....*394
Comparative disposition of organic matter by sand contact and sprinkling filters. By H. W. Clark..... 607
Compressed air plant:
Hydraulic, of the Victoria mines, Mich.*492
Concrete:
Bond between new and old..... 21
Combination concrete, brick and steel shop construction *12
Comments on editorial on concrete failures 269
Curbing at Park Terrace, Hartford, Conn. 211
Expansion joints *652, 689
Forms for concrete construction. By Sanford E. Thompson.....67, 97
New system in floor construction.....*177
Patents on the acid treatment for surfaces 490
Pile foundation for building, Salem, Mass. 121
Concrete: (Continued.)
Practical hints for concrete constructors. Part II. Some points in detail design. By W. J. Douglas..... *98
Prizes for designs for dwelling houses.. 221
Proportioning 67
Proportioning to secure maximum strength and density *599
Reinforcement for irrigation structures. By F. W. Hanna.....*370
Selecting the proportions. By William B. Fuller 65
Should a foreman be a competent designer? 269
Successes and failures..... 66
Treatment of concrete surfaces. By Linn White 65, 67
Value of burying wood in concrete.... *69
Waterproofing 68, 187
Concrete arch proposed for the Hudson River in 1885..... 462
Concrete arches: Germany, three-hinge..*480
With old rail reinforcement. By C. L. Slocum *392
Concrete in architecture 67
Concrete basement floors, Expansion joints in 462
Concrete blocks 67
Concrete breakwater, at Harbor Beach, Mich., by Emil Low *339
Concrete bridge abutment *187
Concrete bridges:
Walnut Lane concrete bridge, Philadelphia *117
Concrete construction, "Restrained" concrete and full vs. general specifications 72
Concrete floor construction, A new system *177
Concrete form separator *379
Concrete gutter and curb for the Jamestown boulevard. By V. W. Dow...*222
Concrete vs. iron pipe culverts..... 463
Concrete and reinforced concrete construction from the fire protection view 618
Concrete structures:
Expansion joints in, with special reference to block construction in dry docks and reservoirs. By L. F. Bellinger *472
Notes on expansion and contraction. By A. C. Lewerenz.....*512, 513
Concrete telegraph poles 632
Concrete tile roofing for mills and industrial buildings 358
Concrete sidewalks 66
Condenser system, Air leakages in..... 274
Conduits:
Hints on design. By Harold Petterson.*540
Reinforced concrete form for concrete conduits. By W. L. Butcher *352
Connecticut Society of Civil Engineers, Annual meeting, Hartford, Conn... 210
Consolidation of Pittsburg and Allegheny 326
Construction of the levee below the recent Colorado River break. By C. W. Ozias *545
Construction of new Catskill water supply, New York City, official beginning 720
Contact filters, Comparative disposition of organic matter by sand and contact filters. By H. W. Clark.... 607
Contracts and contractors:
Basis of payment for structural steel work 183, 267
Bid for energy developed at water power plant of Chicago drainage canal 279
Chicago tunnel system 275
Cost of steam shovel work by railway force and by contract. By John C. Sesser 68
Electric shovels for railway and mining excavation *63
Execution of contract work from an engineer's point of view. By John S. Ely 38
Panama canal, Lowest bidders *104
Question of inclusion of rivet heads in steel weight estimate 541
Responsibility of the engineering profession for the conduct of public contracts. By Major Cassius E. Gillette 587, 595
Slipshod work of contractors and engineers 329, 384
Test cases of eight-hour-day law on government work 221
Why do contractors do slipshod work?. 384
Contraction and expansion of concrete structures. By A. C. Lewerenz. *512, 513
Contours on preliminary surveys 463
Cooperation between makers and users of pulverizing machinery 713
Copper, Use of sulphate of copper in filtration. By Dr. Adolphe Kemna.60, 69
Copper depositing process. By L. Ramakers *402
Copper sulphate:
Use at Pawtucket, R. I., to prevent the clogging of sewage filter beds by blanket growth of micro-organisms 379
Use as a preventive of tastes and odors in public water supplies..... 573
Corrosion of steel boiler tubes on vessels fitted with turbine engines. By Commander J. Edward Palmer 426
Corrosion of steel in reinforced cinder concrete. By William H. Fox..... 569
Cost data:
Comparative cost of contract work and Navy Yard work on battleship Connecticut 189
Construction of the Alaska Central Ry. By William G. Atwood *199
Construction and operating expenses of the municipal electric lighting plant at Burlington, Vt. 594
Cooking by electric heat and by fuel.. 333
Earth auger borings on the New York State barge canal. By Emil Low.. 326
Economic design of reinforced concrete. By F. W. Hanna.....203, 245
Economy in the design of reinforced concrete beams *686
Hauling crops from farms to shipping points. By Frank Andrews 419
Mule haulage and electric haulage for mines. By M. F. Peltier 271
Municipal electric lighting plant at Burlington, Vt. 594
Property survey and its cost *30
Cost Data: (Continued.)
Steam shovel work by railway force and by contract. By John C. Sesser... 68
Steel rails for electric railway feeders. By Julius Alsburg 40
Subdivision of cost of fireproofing city buildings 160
Transportation by wagon on common roads 428
Wash drill borings on the deep waterways surveys, 1897-1900 57
Cost-keeping in the U. S. reclamation service 445
Couplers, Lateral clearances 720
Cranes, Balanced cable, Erie R. R. tunnel *204
Cremation in Great Britain 351
Crowds, Comparative capacity of elevators and escalators for handling. By Charles D. Seeberger *482
Culverts, Concrete vs. iron pipe 463
Current meters, Rating through the ice. By Robert Adams *362
Curve-mechanics 295
Curved lines, Measurement of.....*516

D.

Damage by ice shove on the Ottawa River, Canada.....*521
Dams:
Ashokan reservoir.....*518
Cold Spring dam, Umatilla project, Ore., Experiments on material for. By D. C. Henny.....*250
Earth, Largest ever built..... 697
U. S. Reclamation Service..... 389
Empire reservoir of the Bijou Irrigation District and its eight dams..... *8
Empire reservoir, Colo., Slope protection for embankment..... 136
Experiments on material for Cold Springs dam and for a projected dam which was abandoned.....*490
Failure, Fort Collins, Colo..... 721
Laguna dam, Colorado River..... 160
Large reinforced concrete, at Ellsworth, Me. *557
Proposed across the Connecticut River, Hinsdale, N. H. 389
Across the Susquehanna River by the city of Harrisburg..... 389
Roosevelt, U. S. Reclamation Service, Large electrically operated gates for. By F. W. Hanna..... 589
Use of steel sheet piling in building. By Wm. G. Fargo.....*374
Debris of old buildings, Economical use of 433
Declination arc on a transit plate.... 713
Deductions for punchings and shearings in structural steel work..... 544
Defective gas pipe joints at Burlington and Winooski, Vt. 403
Deformations in bridge members, Extensometer for recording.....681, 685
Derrick, 150-ton electric at Glasgow, Scotland 605
Design and construction of wooden trestles. By R. Balfour.....*610
Design of railway freight terminals. By H. M. North.....*158
Design of reinforced concrete retaining walls. By Evan P. Bone.....*448
Detachable concrete column form.....*358
Determining the direction of deep bore holes and testing their water tightness *568
Development in railway track. By J. W. Schaub *643
Device for bending reinforcing rods....*658
Diagrams:
For proportioning reinforced concrete beams. By A. H. Perkins.....†460
For steam discharge. By Harold Petterson *375
For the design and analysis of reinforced concrete beams.....*385
For overturning moments on retaining walls for earth or water. By Charles H. Hoyt.....†460
For stresses in simple columns under eccentric load. By O. H. Basquin *420
Diamond drilling..... 380
Discharge of steam, Diagram for determining total discharge. By Harold Petterson *375
Diversion of underground water, Damages claimed against East Orange.. 650
Docks, New dry dock at South San Francisco 219
Dock walls, Reinforced concrete, at Rotterdam, Holland.....*64, 137
Double-tracking and yard improvements to facilitate freight traffic on railways 382
Drafting: dimensioning 245
Draftsman's pen-filling inkstand..... 214
Indexing and filing machine drawings. By J. J. Harman..... 151
New parallel ruler.....*657
Shrinkage of maps and errors of draftsmen's scales.....111, 268
Drainage areas, Chicago District, Report of International Waterways Commission on effect of Chicago Drainage Canal on levels and navigation of Great Lakes.....126, 128

Sewage filter:
Percolating, a novel sprinkler motor in use in Wellington, Eng..... *485
Trickling, at the Lawrence experiment station. By H. W. Clark....397, 405
Sewage purification:
Comparative disposition of organic matter by sand, contact and sprinkling filters. By H. W. Clark..... 607
Baltimore, Md., Experiment station.. *235
Waterbury, Conn., Municipal experiment station. By Wm. Gavin Taylor 238
Sewage sprinklers, Moving and rotary types inefficient in cold weather.. 215
Sewage testing device..... 485
Sewerage:
Baltimore, Md., Treatment of..... *235
Passaic Valley sewerage bill..... 362
Passaic Valley, System proposed for.. 275
Use of small pumping plants in connection with sewage systems..... 75
Sewer section, reinforced concrete..... 287
Sewer, Trunk line to Lake Ontario for Rochester, N. Y. 389
Sewers:
Method of sewer assessment..... 211
Reinforced concrete 114
Shafts:
Having three supports..... 185
Sinking a shaft with steel and concrete lining in soft ground. By W. E. Wagner *202
Shear, Unit of value in concrete, Tests of *176
Shears for bridges and maximum live-load bending moments. By Frank P. McKibben..... 372
Sheave, Mammoth wood block..... *337
Sheet piling, Steel, Experience in hard soils. By Wm. G. Fargo..... *374
Sheldon, Dr. Samuel, President of the American Institute of Electrical Engineers. By Chas. L. Clarke.... †107
Shields, Tunnel, Hudson River. By James Forgie..... *223, 243, 295
Shop construction:
Combination concrete, brick and steel shop construction..... *12
Economical reinforced concrete construction *58
Ferracute Machine Co., Bridgeton, N. J. *112
Steel roof trusses and crane girders, Cincinnati, Ohio. By Wm. F. Tubesing *46
Shop work, Use of abrasive materials. By J. Royden Pierce..... *625
Sibert, Major Wm. L., Biographical sketch *290
Sidewalks, Concrete..... 66
Signals:
Audible cab signals on the Great Western Ry., Eng..... *486
Automatic electric block signaling, B. & M. Ry..... 255
Automatic stops as adjuncts 50
Block:
Methods of remedying the interference of foreign currents with automatic block signals..... 25
New system of signaling on Pennsylvania R. R..... *506
Signals operated with storage batteries 51
Causes of accidents..... 381
Some recent developments..... 514
Signal system recommended by Interstate Commerce Commission..... 247
Railway, Unsettled question prevention of accidents. By W. H. Elliott... 415
Report of division of expense of operation of maintenance of interlocking points 353
Surprise tests on Pennsylvania R. R.... 388
Skew bridge of reinforced concrete..... *322
Sluicing, Large electrically-operated gates for the Roosevelt dam..... *589
Smoke inspection at St. Louis, Mo..... 253
Smokestacks:
Extension to the steel smokestack of a copper-smelting plant..... *166
Removal of smokestack, Staten Island. 721
Snow load on roofs..... 336
Snow locomotive for logging work..... *288
Social economics, Improvement of living conditions in the U. S..... 300
Sounding recorder, Automatic..... 478
Specifications:
For construction of oiled gravelled streets, Los Angeles, Cal., specification for construction..... 366

*refers to illustrations and † to insets.

Specifications: (Continued.)
For cast-iron pipe, Report of Committee of Water-Works Standards..... 715
For oak trees..... 463
Responsibility of the engineering profession for the conduct of public contracts. By Major Cassius E. Gillette.....587, 595
"Restrained" concrete and full vs. general specifications..... 72
Unification of specifications for shape and plate steel intended for different purposes..... 622
U. S. reclamation service, notes on preparation..... 649
Specific heat of superheated steam. By A. R. Dodge..... 629
Spikes:
Tests for the Holding Power of Ordinary and screw rail spikes..... 262
Spontaneous combustion in coal veins. 640
Sprinkler motor for the percolating sewage filter at Wellington, Eng.....*485
Standardization of current tendency of technical societies..... 595
Standard Oil Company, Methods of, Report of Interstate Commerce Commission.....149, 161
Standard proposed for small machine screws, Report of committee of American Society of Mechanical Engineers.....*676
Standard proposed for street piping..... 536
Standards of United States, England, France and Germany, Comparisons 632
Standpipe:
Comparison of steel and concrete 215
Reinforced concrete, Attleboro, Mass., *212, 215
State injunction against the construction of the Bronx valley sewer.... 337
State water supply of Illinois..... 316
Steam discharge diagram, by Harold Petterson.....*375
Steam extraction of turpentine from waste pine..... 317
Steam generators, Steam plant of the White motor car. By R. C. Carpenter.....*269
Steam motor cars:
Built for Intercolonial Ry. 341
For railway service, Missouri Pacific R. R. *445
Steam plant exhaust..... 479
Steam plants:
Testing and purchasing coal for. By A. O. Doane.....*146
White Motor Car Co. By R. C. Carpenter *269
Steam pressure, Are high steam pressures for locomotives advantageous? 35, 41
Steam shovel men, Decision on rates of pay on Panama canal work....520, 574
Steam shovel and steam shovel work in railway construction..... 391
Steam turbines:
Developments..... 656
Tests of 500-KW. steam turbine..... 594
24,000-HP. at Mannheim..... 263
Steam, Value of superheated steam in locomotive service..... 115
Steamships:
Cargo, Special types of hull construction *368
Freight, Growth in size of..... 503

Mine timbers, preservation..... 261
Preservation of ties buried in concrete. 161
The line of advance in. By Carl C. Crawford..... 155
Wood, Utilization of, in the United States 367, 382

INDEX TO ILLUSTRATIONS.

A.

Abrasive wheels..... 627
Accidents:
Boat house, Ottawa, Ont..... 521
Building collapse, Rochester, N. Y....1, 5
By-pass gates failure, Colorado River.. 210, 211
Cave-in of shaft, Bakersfield, Cal.. 318, 319
Chimney failure, Louisville, Ky..156, 157
Earth slip, Wachusett Reservoir, Mass. 464, 466
Gas asphyxiation..... 262
Railway:
Bronx Park, N. Y., Derailment..297, 298
Mineral Point, Pa., Derailment..... 264
Terra Cotta, D. C., Position of block stations 50
Roof, Reinforced concrete, struck by falling beam..... 517
Surface cave-in, Erie R. R., Weehawken, N. J. 224, 225
Air compressor, Taylor hydraulic..... 492
Anchor, Four-foot multiplane..... 40
Arches:
Competitive designs, Milwaukee, Wis. 178, 181
Concrete:
Germany 480, 481
New Haven, Conn..... 393
Piney Branch, Washington, D. C.... 682, 683
Walnut Lane, Philadelphia.....117, 119
Elastic theory in reinforced concrete.. 490
Hell Gate, New York..... 583
Masonry, Orleans, France..... 345
No-hinged steel, Oakland bridge, Pittsburg, Pa.....528, 532
Reinforced concrete:
Decatur, Ill., Skew..... 323
Sandy Hill, N. Y.....497, 503
Weisberg, Ind..... 538
Ypsilanti, Mich..... 490
Three-hinged:
Germany 480, 481
Minneapolis, Minn.....171, 175
Washington, D. C., Long Bridge..... 292
Axlebox, Flexible, for Italian locomotive. 571

B.

Bangs, A. M..... 104
Bathometer 479
Beams:
Reinforced concrete, Fire test..... 332
Reinforcement with U-shaped shear bars..... 455
Benzenberg, G. H.....†108
Block, Quintuple wood..... 337
Block signal system, P. R. R.....506, 507
Blowpipe, Oxygen-acetylene, for welding processes..... 707
Blue-printing machine, Electric..... 566
Boilers:
Roberts, for steam car..... 446
Steam motor car..... 260
Steam motor omnibus..... 258
(See also Locomotive boilers and fireboxes.)
Bond between concrete and steel....335, 345
Bore holes, Apparatus for testing....568, 569
Breakwaters:
Concrete, Harbor Beach, Mich....339, 341
Stone, Cleveland, O.....595, 596
Bridge abutment, T-section..... 187
Bridge floors. (See Floors.)
Bridges:
Brooklyn, Terminal.....140, 141, 576
Cables at tops of towers..... 423
Decatur, Ill., Reinforced concrete skew arch 323
Germany, Three-hinged concrete..480, 481
Grier, Cape Colony..... 572
Hamburg, Germany, Center-bearing draw 378, 379
"Hanging," Royal Gorge, Colo..... 217
Hell Gate, New York..... 583
Minneapolis, Minn., Three-hinged arch. 171, 175
New Haven cut..... 393
Oakland, Pittsburg, Pa., No-hinged steel arch.....528, 532
Orleans, France, Masonry arch..... 345
Pin-connected truss..... 511
Piney Branch, Washington, D. C., Concrete 682, 683
Raising, to allow passage of dredge.... 391
St. Lawrence, Cantilever..... 53
Sandy Hill, N. Y., Reinforced concrete 497, 503
Shelbyville, Ind., Reinforced concrete. 538
Stresses, Instrument for recording.... 680, 681
Thief River Falls, Minn., Pin-connected 71
Towanda, Pa., Lehigh Valley R. R.. 277, 279
Walnut Lane, Philadelphia, Concrete arch 117, 119
Washington, D. C., Long Bridge..... 292
Weisberg, Ind., Reinforced-concrete arch 538
Ypsilanti, Mich., Reinforced concrete.. 490
Buckets:
Clam-shell 608
Scraper 324, 325
Buffer-trolley 103
Buffers, Hydraulic..... 103
Buildings:
Allis-Chalmers Co., Reinforced concrete 46, 48
Boat house, Ottawa, damaged by ice shove 521
Eastman, Rochester, Collapse..... 1, 5, 130, 131
El Paso, Tex., Shop, Concrete, brick and steel.....12, 13
Engineering Societies.....22, 467
Factory, Notodden, Norway.....150, 151
Ferracute Machine Co., Bridgeton, N. J. 112
Kern River power-house..... 319
Metropolitan Life Building, Tower.... 49, 138, 139
Mutual Life Insurance Co., San Francisco 124, 126
Pier shed, East River.....25, 26
Ransome Concrete Machinery Co., Plainfield, N. J. 58, 59
Steelwork after many years.....124, 126
Tilted warehouse, Tunis, Africa...458, 459
Warehouse, Chicago, Reinforced concrete 346, 347

C.

Cab signals, Automatic..... 486
Cableways, A-frame center support..... 279
Caissons:
Dock wall construction..... 64
Tunnels under Seine, Paris.....400, 401
Canals:
Cross-sections, Effect of changes upon rate of flow..... 631
Linings, in California.....612, 613
Sheet steel.....430, 431
Car-wheel tread and flange..... 209
Car wheels, Flange wear..... 527
Cars:
Clearance-measuring, B. & O. R. R. 639, 640
Counter-weight, for incline 103
Drop-bottom 641
Electric:
Double-deck, London..... 315
Gyroscope mono-rail..... 598
Underground, London.....316, 317
Flat, with truss cables.....644, 645
Gondola, Steel frame..... 641
Holland sleeping..... 74
Interurban service, Oneida Ry..... 709
Steam motor, Mo. Pac. Ry.....445, 446
Steel, P. R. R.....672, 675
Track shifting, Panama R. R..... 636
Centering for street railway conduits, Collapsible 315
Chain, Weldless steel..... 696
Chaining apparatus for surveying..... 291
Chimney:
Reinforced concrete:
Design 21
Failure 156, 157
Steel, Method of rebuilding..... 289
Cinder pits, Fireproof..... 13
Clearance-measuring rod, B. & O. R. R. 638
Coal mines, Methods of survey....584, 586
Cofferdams:
Ellsworth, Me..... 557
Long Key—Conch Key viaduct..... 504
Metropolitan Ry. tunnels, Paris..... 401
Colorado River break, Closure work.. 210, 211, 545, 546
Column footings, Reinforced concrete... 132
Column forms:
Allis-Chalmers Co., Shops..... 48
Detachable 358
Column formulas, Plot of..... 136
Columns:
Connection with girders..... 454
Metropolitan Life Building, Tower.... 138, 139
Reinforced concrete, method of building 12
Reinforced-concrete wall construction. 58, 59, 346
Compressed air plant, Hydraulic..... 492
Concrete:
Details of construction.....98, 99
Expansion joints.....474, 475, 653
Proportioning 601
Concrete form separator..... 379
Conduit lining, Reinforced concrete..... 352
Connecting rods on locomotives....416, 417
Contractor's plant, Bridge piers, Towanda, Pa. 279
Conveyor, Belt..... 205
Copper-depositing process, Cowper-Coles. 402, 403
Coupling rods on locomotives..... 417
Crane track on dry dock, Concrete..... 512
Cranes:
Balanced cable..... 205
(See also Derricks.)
Crank shaft forgings, Welded steel..... 707
Curb and gutter, Concrete..... 322
Current meters:
Price 263
Rating, through ice..... 362
Curved lines, Measurement of..... 516

D.

Dams:
Ashokan Reservoir, N. Y..... 519
Big Rapids, Mich..... 374
Clackamas River, Cazadero, Ore..701, 704
Cold Springs, Ore.....250, 273
Ellsworth, Me.....557, 559
Empire Reservoir, Colo..... 8
Experiments on material.....250, 253, 400
Sluicing gates, Roosevelt.....589, 591
Sugar Loaf, Colo..... 452
Testing material from bottom of..... 490
Derricks:
Floating, for handling ripmap.....560, 563
New York Barge Canal..... 54
Steel, with scraper-bucket..... 325
(See also Cranes.)
Diagrams:
Air supply, Weehawken South tunnel, Penn. R. R. 231
Arch deflection, Piney Branch bridge.. 683
Bacterial contents of water..... 152
Bridge members, Impact tests..... 681
Centrifugal pumps..... 37
Compressive strength in masonry materials 330
Concrete proportioning.....599, 602
Current meters, Ratings for typical.... 263
Dams, Experiments on earth materials. 250, 252
Earthwork, Scaling quantities from profile 245, 357
Elevators, Capacity of..... 482
Flows in rectangular conduits..... 540
Highway traffic, Illinois..... 321
Horizontal compression members..... 404
Lubrication tests on lard and machine oils at high temperatures..... 675
Proportioning reinforced - concrete beams .....†460
Rainfall, California..... 29
Reinforced-concrete beams:
Design and analyses.....686, 687
Economy in design.....686, 687
Fire test..... 332
Diagrams: (Continued.)
Retaining walls:
Design 449, 451
Overturning moments .....†460
Steel, Recovery from overstrain...334, 335
Stream discharge 375
Stresses in columns.....420, 422
Tulare Lake, Fluctuations..... 29
Water consumption, New England and Richmond, Va. 342, 344
Dock wall, Reinforced concrete..... 65
Drafting instrument, Economic..... 658
Drains, Tile, for reclaiming land....284, 285
Dredges:
Harbor improvement, Mich.....145, 148
"Independent" 653, 655
Skid, on Chagres River..... 638
Dryer, Rotary, Atlas..... 649
Dynamometer tests on railway trains, Recording machine.....616, 617

E.

Earth slip, Wachusett Reservoir....464, 466
Electric power plant, Portland, Ore.. 699, 706
Electric railways:
Conduit system.....313, 315
Gyroscope mono-rail..... 598
London, Engle 311, 315, 618
Sydney, N. S ., Counterweight device 102, 103
System of electrical supply..... 618
West Shore R. R., Utica to Syracuse, N. Y. 708, 709
Elevated railway, Noise-deadening device 219
Ellipse, Method of constructing..... 388
Engineering staff, P. R. R., Hudson R. tunnels 249
Engine house, Rectangular, with radial tracks 642, 643
Engines:
Dredge 146, 148
Mine hoisting, with Corliss valve gear. 468
Steam motor car..... 261
Steam motor omnibus..... 259
Excavation, Hydraulic..... 540
Excavators:
New York State Barge Canal.....607, 609
Scraper 324, 325
Expansion joints in concrete work..474, 475
Extensometer for recording deformations of bridge members under stress.. 680, 681

F.

Filters, Sewage:
Blanket growths of micro-organisms.. 380
Experimental:
Baltimore, Md.....235, 237
Waterbury, Conn.....238, 241
Sprinkler motor..... 485
Sprinkling, Andover, Mass.....399, 400
Fireboxes. (See Locomotive boilers and fireboxes.)
Flange, Car wheel..... 209
Floors:
Eastman Building, Rochester, Test.... 131
Marti system, Concrete..... 177
Metropolitan Life Building, Tower..... 139
Pin-connected truss bridge..... 511
Plate-girder deck bridges, Reinforced concrete 539
Walnut Lane Bridge, Philadelphia.... 119
Warehouse 347
Form separator, Concrete..... 379
Forms for columns and girders:
Allis-Chalmers Co., Shops..... 48
Detachable 358

G.

Gaillard, D. DuB..... 260
Gas engine road roller..... 453
Gas main, Arrangement, Winooski, Vt... 262
Girders:
Connection with columns..... 454
Flange-rivet design.....
Floor, Warehouse.....
Forms for.....
Little Warrior River bridge, Ala.....

*refers to illustrations and † to insets.

Specifications: (Continued.)
For cast-iron pipe, Report of Committee of Water-Works Standards..... 715
For oak trees..... 463
Responsibility of the engineering profession for the conduct of public contracts. By Major Cassius E. Gillette 587, 595
"Restrained" concrete and full vs. general specifications..... 72
Unification of specifications for shape and plate steel intended for different purposes 622
U. S. reclamation service, notes on preparation 649
Specific heat of superheated steam. By A. R. Dodge..... 629
Spikes:
Tests for the Holding Power of Ordinary and screw rail spikes..... 262
Spontaneous combustion in coal veins.. 640
Sprinkler motor for the percolating sewage filter at Wellington, Eng.....*485
Standardization of current tendency of technical societies 595
Standard Oil Company, Methods of, Report of Interstate Commerce Commission 149, 161
Standard proposed for small machine screws, Report of committee of American Society of Mechanical Engineers *676
Standard proposed for street piping..... 506
Standards of United States, England, France and Germany, Comparisons 632
Standpipe:
Comparison of steel and concrete 215
Reinforced concrete, Attleboro, Mass., *212, 215
State injunction against the construction of the Bronx valley sewer.... 337
State water supply of Illinois 316
Steam discharge diagram, by Harold Petterson *375
Steam extraction of turpentine from waste pine 317
Steam generators, Steam plant of the White motor car. By R. C. Carpenter *260
Steam motor cars:
Built for Intercolonial Ry. 341
For railway service, Missouri Pacific R. R. *445
Steam plant exhaust 479
Steam plants:
Testing and purchasing coal for. By A. O. Doane.....*146
White Motor Car Co. By R. C. Carpenter *269
Steam pressure, Are high steam pressures for locomotives advantageous? 35, 41
Steam shovel men, Decision on rates of pay on Panama canal work....520, 574
Steam shovel and steam shovel work in railway construction 391
Steam turbines:
Developments 656
Tests of 500-KW. steam turbine..... 504
24,000-HP. at Mannheim 263
Steam, Value of superheated steam in locomotive service 115
Steamships:
Cargo, Special types of hull construction *368
Freight, Growth in size of 503
Largest 580
New Ocean liner "Europa"..... 174
Statistics for 1906 of losses at sea.... 275
Steel alloys, Developments in production 541
Steel arch bridge over East River at Hell Gate, New York City *583
Steel, Bond between concrete and, Tests of *176
Steel box cars for the Universal Portland Cement Co..... 615
Steel cars for passenger train equipment, Pennsylvania R. R.....*671
Steel chain, weldless.....*696
Steel corrosions in reinforced cinder concrete. By William H. Fox..... 569
Steel frame 50-ton gondola cars, Wabash Ry. *640
Steel freight cars used in South America 603
Steel furnace, Induction, in Voelklingen, Germany 485
Steel and iron production of 100 years. By Sir Hugh Bell..... 614
Steel longitudinals under railway track.. 688
Steel-making in electric induction furnaces 285
Steel rails used by electric railway feeders. By Julius Alsberg..... 40
Steel:
For reinforced concrete, Choice of....*516
Recovery from overstrain, Effect of extreme temperature *334
Unification of specifications for shape for bridges and ships..... 622
Steel tapes:
Correction constants. By Hugh S. Brown 32
Steel weight system, Inclusion of rivet heads 541
Steel wheels for passenger cars..... 720
Stone breakwater at Cleveland, Ohio. By Geo. H. Cushing..... 565
Storms:
Effect on Cleveland breakwater..... 689
In Texas 523
Stream gaging in Alaska..... 79
Street lighting by arc lamps at Colorado Springs, Decision of Board of Arbitration 493
Street pavements, Tearing up to gain access to underground pipes..... 203
Street piping, a standard proposed..... 596
Street railway question, Chicago..... 433
Regulations in Prussia 458
Street railways:
Chicago specifications for new rails..... 507
Grinding of rails in England..... 511
Horse cars in New York City streets... 115
Municipal ownership in Chicago..... 487
Rails and paving of. By J. T. Jeup.... 120
Sydney, New South Wales, Counterweight device on the Balmain Tramway. By Percy W. Shaw.....*102, 109
Track elevation for Indianapolis..... 114
Transportation problem in large cities. 134
Streets:
Experiments with various pavements, with heavy grades.....*286
Macadam, Surface with California liquid asphalt, Redlands, Cal. By C. C. Brown.....*365
Oiled graveled, Los Angeles, Cal., Specification for construction..... 366
Strength and density, Proportioning concrete to secure maximum.....*599
Strengthening the three-arch bridge over the Mississippi River, between Minneapolis and St. Paul, Minn. By Frank H. Constant.....*171
Stress column formulas and the practical column 162
Stresses:
Column formulas in relation to the practical column 15, 35
Comments on editorial on concrete failures 71, 209
Compressive unit stress in reinforced concrete 103
Continuity stresses in reinforced concrete 43
Design for railway track, based upon a study of stresses existing in track superstructure. By O. E. Selby....*186
Design of reinforced concrete for maximum economy 215
Empirical formulas 135
Formula for conditions of economy in reinforced concrete beams..... 245
Formulas for practical designing of columns 136
Simple columns under eccentric load. By O. H. Basquin.....*420
Structural engineering:
Basis of payments for structural steel work 183, 207
Bridges: Strengthening the three-arch bridge over the Mississippi River, between Minneapolis and St. Paul. By Frank H. Constant.....*171
Borings, Wash drill, on the New York State barge canal. By Emile Low.. *54
Cantilever bridge, Quebec, Canada..... *53
Column formulas and the practical column 15, 35
Deductions for punchings and shearings in structural steel-work..... 544
Distribution of concentrated loads over girder flange rivets.....*163
Erecting an extension to the steel smokestack of a copper smelting plant *163
Example of rapid steel erection.....*25
48-story tower of Metropolitan Life Building, New York City.....*138
Method of plate girder erection.....*274
Method of reconstructing steel chimney.*280
Oakland bridge, Pittsburg, Pa., Steel arches without hinges. By Willis Whited *528
Question of inclusion of rivet heads in steel-weight system 541
Reinforced concrete shop with steel roof trusses and crane-girders. By Wm. F. Tubesing.....*46
Structural materials, Testing U. S. Geological Survey 363
Structural shapes, Use of in reinforced concrete construction *454
Structural steel-work, Common practice and common defects. By Edward Godfrey *394
Submarine boats, U. S. Navy, Bids for... 494
Subways:
Boston, Ventilation of.....*181
Great Northern, Piccadilly & Brompton Railways, London 45
Loops for Brooklyn Bridge cars at Manhattan terminal *140
Manhattan Island, Proposed..... 143
New York City, Wash borings for Rapid Transit Commission..... *58
Passenger traffic, London, England... 380
Pipes in British cities and in Paris...*280
Proposed improvements in rapid transit, St. Louis, Mo..... 180
Success and failure of concrete..... 66
Superheated steam:
Materials for control of. By M. W. Kellogg *658
Specific heat of. By A. R. Dodge..... 629
Superheating on French locomotives.... 325
Surveying:
Clinometer graduated to percentages of grade 384
Correction constants for steel tapes. By Hugh S. Brown..... 32
Declination arc on a transit plate..... 713
Deep waterways: Cost of wash-drill borings, 1897-1900..... 57
Devices for long-distance tape reading.*358
Drainage investigations of the U. S. Dept. of Agriculture..... 221
Engineering works in the Philippine Islands. By G. R. Putnam.....*691
Examination questions for licensing engineers in the State of Wyoming.. 694
Form for recording notes of preliminary surveys for a railway line.....*543
Geodetic, In the United States..... 242
Geological and water surveys of Illinois 152
Level checks in work in the Pennsylvania Railroad Hudson River tunnels 295
Leveling instrument for builders and farmers *257
Method and apparatus for chaining used by the Topographical Bureau, New York City. By George J. Falkinburg *291
Methods used in coal mines. By L. D. Tracy *583
New foresight for setting transit points. By Fred. J. Wood.....*326
Penna. R. R., Hudson River tunnels. By James Forgie.....*223, 243, 295
Property surveys and its cost. By Arthur W. Tidd.....*30
Running levels with the transit..... 547
Report of the U. S. Geological Survey on rate of natural recession of Niagara Falls 248
Sanitary survey of White River..... 114
Should a civil engineer furnish his own instruments? 596
Suggestions regarding property surveys 111
Tests in sighting at leveling rods and stadia rods. By John C. Tracy.... 321, 328
Taking contours on preliminary surveys 463
Tape-leveling rod 576
Tape-leveling rod and its use. By Arthur W. Tidd.....*156 576
Topography with an Abney clinometer 268, 329, 384
Two-mile viaduct, Key West extension of the Florida East Coast Ry. By Geo. P. Carver *504
Use of telephone 332
Suspension bridge, At Morgantown, W. way Track. By E. P. Roundey.160, 245
Switch-closing device and switch protection 356
Switches, Dangers incident to the working of 405
Switches and frogs: Report of Com. of Amer. R. R. Engineering and Maintenance of Way Assn..... 354

T.

Tables and diagram for proportioning reinforced concrete members..... 462
Tables for roadmasters.....358, 385
Tables Showing the Proportion of the Value in the Items of Construction of Fireproof Buildings..... 100
Tape levelling rod. By Arthur W. Tidd. *156, 576
Tape Reading: Devices for reading at long distance *358
Tar as a coloring material for mortar... 527
Tar Macadam pavement in Duluth, Minn. By E. K. Coe..... 592
Mankato, Minn. By R. E. Brown.... 617
Technical Education:
Apprenticeship Courses, Bethlehem Steel Co..... 221
Capacity for service an ideal. By Frederick R. Hutton..... 466
Philadelphia Trade Schools..... 539
Value of English to the technical man. By John Lyle Harrington..... 465
Telephones:
Mileage of American Telephone Co. in 1906 169
Report of a commission on franchises and service for Chicago..... 418
Statistics of Growth in U. S. in 1906. 144
Use of in surveying..... 332
Telharmonic System of Producing Music Electrically *234
Temperature: Effect of on the recovery of steel from overstrain..... 334
Terminals:
Brooklyn Bridge, Enlarging the Manhattan Terminal.....134, 140
Terminal Station, Chicago..... 469
Chicago Elevated Ry.: Cause of Congestion 133
Terra Cotta Blocks, Use in Dwelling House Walls 164
Test of comparative efficiency of large and small well-drilled holes for heavy blasting..... 597
Testing with a scraper for obstructions in a long water main..... 593
Tests in sighting at leveling rods and stadia rods. By John C. Tracy.321, 328
Tests of compounding and superheating on French locomotives..... 325
Tests: Railway, power of holding spikes. 407
terminal *576
Theory of horizontal compression members with eccentric pin connections. By James E. Boyd.....*404
Tide Gage Indicator: Novel Type of Water Level Indicator..... 220
Ties:
Discussion of recommendation of sizes at Convention of Amer. R. R. Engineering and Maintenance-of-Way Association 253
Duplex steel for rail joints..... 292
Eucalyptus wood for ties..... 209
Preservation of Ties Buried in Concrete 136, 161, 162
Specifications for oak trees..... 463
Steel: Rail Fastenings for use with...*271
Treated 359
Wooden vs. Steel, Recommendation of Committee of Investigation of the Penn. 18-Hr. Special Catastrophe.*264
Tie Plates and Tie Rods in Street Railway Track. By E. P. Roundey.160, 245
Tie Preservation, The Present Outlook for Processes in the U. S. By Samuel M. Rowe..... 63
Tie rods in street railway track..... 329
Timber bridge across the Potomac at Washington *292
Timber:
Commercial, strength of..... 697
Fire-killed, tests of..... 475
Timber Preservation: Air Seasoning vs. Steaming. By David Allerton..... 140
Steaming before Treating with Preservatives, Evolution of the Process. By Octave Chanute 138
Timber: Treaties, hints on design and construction *610
Topographic survey sheets, U. S. Geological Survey 595
Topography: Method of Taking, with Abney Clinometer Level...268, 329, 384
Tornado:
Destruction by at Alexandria, La..... 400
Hemming, Tex..... 495
Towers for high-potential transmission line reinforced concrete construction. By F. W. Scheidenhelm.....*476
Track:
Action of locomotives on curved track. 384
Arrangement of tracks for railway freight terminals.....*158
Ballasting, Report referring to the analysis of track and supporting power of ballast..... 352
Car wheels for. By C. Skinner.....*527
Design for railway track, based upon a study of the stresses existing in track superstructure. By O. E. Selby *186
Duplex steel ties for rail joints..... 292
Experience with steel longitudinals.... 688
Experience with wide-base rails on the Atchison, Topeka & Santa Fe Ry..*657
Large rail orders placed by railways.. 547
Lining by the use of jacks.....*457, 597
New rails for the Chicago Street Ry...*567
New 100-lb. rail section.....*710
Pennsylvania R. R., New standard road-bed *120
Question rail design..... 711
Rail fractures, Union Pacific R. R.... 530
Railway:
Development in Canada..... 248
Fractures of railways in New York State 493
Street railway:
At Fort Wayne, Ind.....*684
Tie plates and tie rods. By E. P. Roundey 40, 160, 245
Suggested development. By J. W. Schaub *643
"Unbreakable" rails 622
Use of tie rods in street railways.... 329
Track-shifting machine in use on Panama Ry. *635
Tractigraph, Hatchet.....*386
Traction engines:
Razing ruins at San Francisco..... 320
Hauling ore..... 485
Traction, Steam and electric, Evansville, Ind. 357
Train equipment, Steel cars for the Pennsylvania R. R.....*671
Train resistance and the economics of railway location..... 330
Train resistance formulas..... 94, 222
Train speed indicators, Use of..... 323
Tramway, Wire rope, at Chilecito, Argentine 523
Transportation:
Mule haulage and electric haulage for mines. By M. F. Peltier..... 271
Steam omnibuses for London street service 328
Wagon on common roads, Figures for cost 328
Transverse contours for roadway pavements 373
Treatment of concrete surfaces. By Linn White..... 65, 67
Trestles, Wooden, Design and construction of. By R. Balfour.....*320
Trickling sewage filters at the Lawrence Experiment Station, Eight years' experience. By H. W. Clark...697, 703
Trigonometric functions of frog angle expressed in terms of frog number.. 516
Trolley railways:
New Jersey coast..... 711
Somerville, Mass. 503
Tuberculation and cleaning of water mains 716

Wood, Utilization of, in the United States 367, 382

INDEX TO ILLUSTRATIONS.

A.

Abrasive wheels..... 627
Accidents:
Boat house, Ottawa, Ont..... 521
Building collapse, Rochester, N. Y....1, 5
By-pass gates failure, Colorado River.. 210, 211
Cave-in of shaft, Bakersfield, Cal.... 318, 319
Chimney failure, Louisville, Ky..156, 157
Earth slip, Wachusett Reservoir, Mass. 464, 466
Gas asphyxiation..... 202
Railway:
Bronx Park, N. Y., Derailment..297, 298
Mineral Point, Pa., Derailment..... 264
Terra Cotta, D. C., Position of block stations 50
Roof, Reinforced concrete, struck by falling beam..... 517
Surface cave-in, Erie R. R., Weehawken, N. J.....224, 225
Air compressor, Taylor hydraulic..... 492
Anchor, Four-foot multiplane..... 40
Arches:
Competitive designs, Milwaukee, Wis. 178, 181
Concrete:
Germany 480, 481
New Haven, Conn..... 393
Piney Branch, Washington, D. C.... 682, 683
Walnut Lane, Philadelphia.....117, 119
Elastic theory in reinforced concrete.. 490
Hell Gate, New York..... 583
Masonry, Orleans, France..... 345
No-hinged steel, Oakland bridge, Pittsburg, Pa.....528, 532
Reinforced concrete:
Decatur, Ill., Skew..... 323
Sandy Hill, N. Y.....497, 503
Weisberg, Ind..... 538
Ypsilanti, Mich..... 490
Three-hinged:
Germany 480, 481
Minneapolis, Minn.....171, 175
Washington, D. C., Long Bridge..... 292
Axlebox, Flexible, for Italian locomotive. 571

B.

Bangs, A. M..... 104
Bathometer 479
Beams:
Reinforced concrete, Fire test..... 332
Reinforcement with U-shaped shear bars 455
Benzenberg, G. H.....†108
Block, Quintuple wood..... 337
Block signal system, P. R. R.....506, 507
Blowpipe, Oxygen-acetylene, for welding processes..... 707
Blue-printing machine, Electric..... 568
Boilers:
Roberts, for steam car..... 446
Steam motor car..... 260
Steam motor omnibus..... 258
(See also Locomotive boilers and fireboxes.)
Bond between concrete and steel....335, 345
Bore holes, Apparatus for testing....508, 509
Breakwaters:
Concrete, Harbor Beach, Mich....339, 341
Stone, Cleveland, O.....565, 566
Bridge abutment, T-section..... 187
Bridge floors. (See Floors.)
Bridges:
Brooklyn, Terminal.....140, 141, 576
Cables at tops of towers..... 423
Decatur, Ill., Reinforced concrete skew arch 323
Germany, Three-hinged concrete..480, 481
Grier, Cape Colony..... 572
Hamburg, Germany, Center-bearing draw 378, 379
"Hanging," Royal Gorge, Colo..... 217
Hell Gate, New York..... 583
Minneapolis, Minn., Three-hinged arch. 171, 175
New Haven cut..... 393
Oakland, Pittsburg, Pa., No-hinged steel arch.....528, 532
Orleans, France, Masonry arch..... 345
Pin-connected truss..... 511
Piney Branch, Washington, D. C., Concrete 682, 683
Raising, to allow passage of dredge.... 391
St. Lawrence, Cantilever..... 53
Sandy Hill, N. Y., Reinforced concrete 497, 503
Shelbyville, Ind., Reinforced concrete. 538
Stresses, Instrument for recording.... 680, 681
Thief River Falls, Minn., Pin-connected 71
Towanda, Pa., Lehigh Valley R. R.... 277, 279
Walnut Lane, Philadelphia, Concrete arch 117, 119
Washington, D. C., Long Bridge..... 292
Weisberg, Ind., Reinforced-concrete arch 538
Ypsilanti, Mich., Reinforced concrete.. 490
Buckets:
Clam-shell 608
Scraper 324, 325
Buffer-trolley 103
Buffers, Hydraulic..... 103
Buildings:
Allis-Chalmers Co., Reinforced concrete 46, 48
Boat house, Ottawa, damaged by ice shove 521
Eastman, Rochester, Collapse..... 1, 5, 130, 131
El Paso, Tex., Shop, Concrete, brick and steel.....12, 13
Engineering Societies.....22, 467
Factory, Notodden, Norway.....150, 151
Ferracute Machine Co., Bridgeton, N. J. 112
Kern River power-house..... 319
Metropolitan Life Building, Tower.... 49, 138, 139
Mutual Life Insurance Co., San Francisco 124, 126
Pier shed, East River..... 25, 26
Ransome Concrete Machinery Co., Plainfield, N. J. 58, 59
Steelwork after many years.....124, 126
Tilted warehouse, Tunis, Africa....458, 459
Warehouse, Chicago, Reinforced concrete 346, 347

C.

Cab signals, Automatic..... 486
Cableways, A-frame center support..... 279
Caissons:
Dock wall construction..... 64
Tunnels under Seine, Paris.....400, 401
Canals:
Cross-sections, Effect of changes upon rate of flow..... 631
Linings, in California.....612, 613
Sheet steel.....430, 431
Car-wheel tread and flange..... 209
Car wheels, Flange wear..... 527
Cars:
Clearance-measuring, B. & O. R. R. 639, 640
Counter-weight, for incline 103
Drop-bottom 641
Electric:
Double-deck, London..... 315
Gyroscope mono-rail..... 598
Underground, London.....316, 317
Flat, with truss cables.....644, 645
Gondola, Steel frame..... 641
Holland sleeping..... 74
Interurban service, Oneida Ry..... 709
Steam motor, Mo. Pac. Ry.....445, 446
Steel, P. R. R.....672, 675
Track shifting, Panama R. R..... 630
Centering for street railway conduits, Collapsible 315
Chain, Weldless steel..... 696
Chaining apparatus for surveying..... 291
Chimney:
Reinforced concrete:
Design 21
Failure 155, 157
Steel, Method of rebuilding..... 289
Cinder pits, Fireproof..... 13
Clearance-measuring rod, B. & O. R. R. 638
Coal mines, Methods of survey....584, 586
Cofferdams:
Ellsworth, Me..... 557
Long Key—Conch Key viaduct..... 504
Metropolitan Ry. tunnels, Paris..... 401
Colorado River break, Closure work.... 210, 211, 545, 546
Column footings, Reinforced concrete... 132
Column forms:
Allis-Chalmers Co., Shops..... 48
Detachable 358
Column formulas, Plot of..... 136
Columns:
Connection with girders..... 454
Metropolitan Life Building, Tower.... 138, 139
Reinforced concrete, method of building 12
Reinforced-concrete wall construction. 58, 59, 346
Compressed air plant, Hydraulic..... 492
Concrete:
Details of construction.....98, 99
Expansion joints.....474, 475, 673
Proportioning 691
Concrete form separator..... 379
Conduit lining, Reinforced concrete..... 352
Connecting rods on locomotives....416, 417
Contractor's plant, Bridge piers, Towanda, Pa. 279
Conveyor, Belt..... 205
Copper-depositing process, Cowper-Coles. 402, 403
Coupling rods on locomotives..... 417
Crane track on dry dock, Concrete..... 512
Cranes:
Balanced cable..... 205
(See also Derricks.)
Crank shaft forgings, Welded steel..... 707
Curb and gutter, Concrete..... 322
Current meters:
Price 263
Rating, through ice..... 362
Curved lines, Measurement of..... 516

D.

Dams:
Ashokan Reservoir, N. Y..... 519
Big Rapids, Mich..... 374
Clackamas River, Cazadero, Ore..701, 704
Cold Springs, Ore.....250, 253
Ellsworth, Me.....557, 559
Empire Reservoir, Colo..... 8
Experiments on material.....250, 253, 490
Sluicing gates, Roosevelt.....589, 591
Sugar Loaf, Colo..... 452
Testing material from bottom of..... 490
Derricks:
Floating, for handling riprap.....560, 563
New York Barge Canal..... 54
Steel, with scraper-bucket..... 325
(See also Cranes.)
Diagrams:
Air supply, Weehawken South tunnel, Penn. R. R. 231
Arch deflection, Piney Branch bridge.. 683
Bacterial contents of water..... 152
Bridge members, Impact tests..... 681
Centrifugal pumps..... 37
Compressive strength in masonry materials 330
Concrete proportioning.....590, 602
Current meters, Ratings for typical.... 263
Dams, Experiments on earth materials. 250, 252
Earthwork, Scaling quantities from profile 245, 357
Elevators, Capacity of..... 482
Flows in rectangular conduits..... 540
Highway traffic, Illinois..... 321
Horizontal compression members..... 404
Lubrication tests on lard and machine oils at high temperatures..... 675
Proportioning reinforced - concrete beams .....†469
Rainfall, California..... 29
Reinforced-concrete beams:
Design and analyses.....686, 687
Economy in design.....686, 687
Fire test..... 332
Diagrams: (Continued.)
Retaining walls:
Design 449, 451
Overturning moments .....†460
Steel, Recovery from overstrain....334, 335
Stream discharge 375
Stresses in columns.....420, 422
Tulare Lake, Fluctuations..... 29
Water consumption, New England and Richmond, Va. 342, 344
Dock wall, Reinforced concrete..... 65
Drafting instrument, Economic..... 658
Drains, Tile, for reclaiming land.....284, 285
Dredges:
Harbor improvement, Mich.....145, 148
"Independent" 653, 655
Skid, on Chagres River..... 638
Dryer, Rotary, Atlas..... 649
Dynamometer tests on railway trains, Recording machine.....616, 617
